

Safety First

Description: A two-person team (maximum of one team per school) to demonstrate their understanding of safety in the workplace and teamwork abilities. There will be both a written component to this competition and a physical component. Students will be required to work together to answer 50 multiple choice questions related to safety. Teams will also be required to identify and correct safety hazards within the competition space. Recommended study materials will be provided by the sponsor.

Time: Students will have 30 minutes to complete the multiple-choice questions on Friday and 30 minutes for the physical safety component on Friday. Participating students can sign up for their Friday time slot on Thursday during the Event Briefing.

Limits: The sponsor reserves the right to limit the number of individuals competing based on time or physical space constraints of the campus. Schools will be able to compete based on the date their registrations were received and paid for. (Registrations that are received late or have not been paid will be placed on a waiting list.)

JUDGING CRITERIA

Points: 200 possible points for the team score.*

Points will be assigned based on the following criteria:

1. Written exam (30%)
2. Correctly identifying and correcting safety hazards (70%)

Time will only be used as a tiebreaker.

Students are required to bring the following materials to the event:

- Two sharpened pencils with erasers for the written exam on Friday
- Students are required to wear long pants and boots or close toed shoes.

Sponsor is required to supply the following materials for the event:

- Course supplies for safety hazards, including gloves for participants
- Copies of written exam and answer sheet with cover page
- Sufficient number of judges and event monitors
- Timer
- Any other items deemed necessary for this event
